Walks

Book one of the following walks to have a DOC ranger accompany your group

Governors Bush Walk

Time: 1 hour return

A gradual climb leads to a lookout point before the track descends and returns to the village. This popular walk offers birdlife and a good viewpoint of the mountains.

Red Tarns Track

Time: 2 hours return

Climbs steeply to the Red Tarns. A viewpoint offers a spectacular panorama of the valley and Aoraki/Mount Cook.

Kea Point Walk

Time: 1 hour return from the White Horse Hill carpark

This walk winds its way through sub-alpine grasslands and scrub to the Mueller Glacier moraine wall. The walk ends at a viewing deck that gives stunning views of Mt Sefton and Footstool, the Hooker Valley, Mueller Glacier Lake and Aoraki/Mount Cook.

Hooker Valley Track

Time: From the village:

1st swingbridge: 1 hour 30 min return,

2nd swingbridge: 2 hours return,

Hooker Lake: 4 hours return

One of the most popular walks in the park, it leads up the Hooker Valley towards Aoraki/Mount Cook.

The track passes close to the Alpine Memorial, which is a great viewpoint. Continue on to Hooker River and cross twice on swingbridges before reaching Stocking Stream Shelter.
